

## FIGHTING NEAR SUEZ, BERLIN REPORT SAYS

Native Troops Mutiny and Egyptian Notables are Wounded, Germans Assert.

### LOSSES IN EAST DENIED

BERLIN, via wireless to Sayville, L. I., Nov. 14.—Fighting is in progress near the Suez Canal, according to an official statement issued here to-day.

The statement continues that according to advices from Milan four carloads of British soldiers wounded in fighting between Osmalla and Suez have arrived at Cairo. In many instances, it is stated, native troops have mutinied and many Egyptian notables have been arrested.

Public confidence that satisfactory progress is being made in the western theatre of war has been increased by the news received yesterday.

This confidence is reflected by Major Morant, military critic of the *Times*, who regards the fact that French prisoners were taken at Neuport on Thursday as indicating that the recent defeat of the Belgians resulted in so great a thinning of their ranks that French troops have had to be brought in to replace their losses. The critic adds that the taking of prisoners at Ypres indicates that the energy of the enemy is decreasing.

That the French believed that the German line had been weakened at Soissons to strengthen the line further west is assumed by Major Morant from the French attempts to break through at Reims. This belief, he says, was an error.

Considerable anxiety has been caused by the Russian advance south of the Vistula, particularly in the region of Kalisz. In the absence of positive knowledge how far the Russians have advanced it is not believed here that they have crossed the German frontier at any point. Major Morant says he does not consider that the present fighting on this frontier involves any danger of a new Russian invasion.

Reports coming from outside that the loss of Posen and Pleschen have been occupied for five days are discredited here, and the official press intimates that not only is there no cause for anxiety but that Gen. von Hindenburg will resume his offensive against the Russians soon.

The official *Norddeutsche Allgemeine Zeitung*, basing its information on official statements, says:

"It can be said that only a few of the border regions in East Prussia have been penetrated by solitary detachments of Russian troops. There is no reason to fear for East Prussia, and the provinces of Posen and Silesia are entirely out of the danger zone."

A note of warning against the exaggeration of Germany's successes by the public is sounded by Count von Helldorf in the *Tagesspiegel*. While expressing belief in a complete German victory, he cautions the public against contempt for the strength of the British fleet and says that there is no reason to believe that its fighting strength has been impaired by the losses suffered up to the present time.

"Those best able to judge of this matter in German naval circles," he said, "have no such conception."

### VIENNA BUSINESS IMPROVES.

Foodstuffs Ample, but Price of Bread is Increasing.

Special Cable Dispatch to THE SUN.  
VIENNA, via Rome, Nov. 14.—The Mayor issued an announcement to-day to the effect that business was in a satisfactory condition. "There is a sufficient supply of foodstuffs, but the price of bread is increasing. The number of unemployed is decreasing and the free soup kitchens are not patronized any longer. This is regarded as a sure sign that work is plentiful. The Mayor says cholera is prevailing only among the soldiers. So far civilians have not been attacked."

### OKUMA BLAMES THE KAISER.

Says German Sovereign Dreams of Founding New Roman Empire.

Cable Dispatch to the East and West News Bureau.  
Tokyo, Nov. 14.—The Kokun Society, a prominent organization, held a meeting yesterday to celebrate the fall of Tain-tao. The meeting was attended by Count Okuma, the Premier; Baron Kato, Foreign Minister; Mr. Ozaki, Minister of Justice, and the diplomatic representatives of the Allies, together with 200 members. The Premier in the course of his speech said:

"The cause of this great war is only too evident. That several peace loving countries have one by one been led to unheathly their swords is entirely due to the mistaken policy of imperialism and militarism pursued by Germany. We rejoice to see the fall of Tain-tao, not only for our own sake but as it will doubtless bring no small benefit to our allies. The disturber of peace, who dreams in this twentieth century of founding a new Roman Empire and hesitates not to sacrifice for the attainment of his ambition tens of thousands of lives and the civilization and wealth reared up by the labor of many generations, deserves the wrath of heaven and his project is doomed to failure."

What Mr. Baifour said in his Guildhall speech, that one victory begets another, is too true. I cannot therefore but rejoice from the bottom of my heart that the fall of Tain-tao advances us one step toward the restoration of peace to the much harassed world."

### PLACENTA TISSUE FOR BURNS.

Pupil of Dr. Carrel Discovers New Cure for Shrapnel Wounds.

Special Cable Dispatch to THE SUN.  
PARIS, Nov. 14.—The *Matin* prints a description of how Dr. Serge Voronoff, who was a pupil of Dr. Alexis Carrel at the Rockefeller Research Institute in New York, cures shrapnel burns, which are numerous and deadly, by transplanting placenta tissue obtained at maternity hospitals to the wounded who are suffering from burns at the Russian Embassy's hospital at Bordeaux.

Dr. Voronoff states that this method would be equally successful in peace time for large burns of any kind.

### French Gets Captured Flags.

Special Cable Dispatch to THE SUN.  
PARIS, Nov. 14.—Two German flags which were found buried in the trenches where the British fought in the battle of the Marne have been sent by Gen. Joffre to Gen. Sir John French.
